B.Com.

Focus Areas: Accounting, Business Economics, Communication

Projects

HR Analytics Dashboard | Power BI | DAX

- Developed an interactive dashboard to track key HR metrics such as attrition rate, average salary, and tenure.
- Visualized attrition trends by age group, salary slab, education, job role, and years at company.
- Enabled data-driven insights to support smarter HR decisions.

Power BI Superstore Sales Dashboard | Power BI

- Built interactive dashboard to analyze sales, profit, and delivery metrics across two years.
- Used DAX to calculate KPIs like average delivery time and year-over-year trends.
- Added slicers, maps, and visuals (donut, stacked charts) for dynamic, user-driven insights.

Business Analysis Project – Shri Balaji Industrial Products Ltd.

- Conducted SWOT and PESTLE analysis to assess market strategy and operational performance.
- Analyzed financials, supply chain, and customer satisfaction to identify business gaps.
- Proposed CRM and Account-Based Marketing (ABM) strategies; drafted a complete Business Requirements Document (BRD).
